Inflammation 911: the Mouth-Body-Mind Connection and
The Human Microbiome:
What Every Dental Professional Needs to Know

The oral environment has far reaching effects on the rest of the body. Patients appreciate the dental health professional who sees the bigger picture and truly understands the relationship between the body, mind & mouth. Set yourself apart from the pack and develop a VALUE-ADDED PRACTICE. Stop the deadly “rock n roll” cascade with specific dental & life-style solutions guaranteed to change your patient’s health destiny.

Our patients’ gut flora makes very powerful anti-inflammatory agents when fed key nutrients. Learn what impacts gut integrity: antibiotics, jet lag, fast food, artificial sweeteners & what we dental pros can do! Dental industry people are the key health care professionals to ensure optimum functioning of the masticatory system 6 MCEs

Learning Objectives

Recognize the destructive INFLAMMATORY CASCADE in your patients *Make the connection between diabetes, insulin resistance, & inflammation *Learn how to spot the SLEEP DEPRIVED PATIENT. Hint, 30% of Americans are shift workers and are living in a “jet lag” state *Spot how stress shows up in your patient’s mouth *Understand how chronic dehydration adversely influences your patient’s biochemistry *Identify 7 KEY foods & lifestyle habits that contribute to inflammation – EAT THIS NOT THAT *Learn which exercises best fight inflammation in your body *Put into practice some simple solutions to modify your patient’s behavior *Implement a new dimension to your treatment planning *Discover how visceral fat behaves like an active organ releasing inflammatory cytokines causing havoc throughout the entire body & mouth.

Our Speaker

Dr. Uche Odiatu DMD is a professional member of the American College of Sports Medicine and a practicing dentist in Toronto. He is also the author of The Miracle of Health. This busy health care professional is an NSCA Certified Personal Trainer, Certified Yoga Instructor, Certified Boot Camp Instructor and has given 500 plus lectures in England, Canada, the USA, the Bahamas, Denmark, Bermuda and Norway. He has lectured at the American Dental Association Annual session 14 times since 2006. Has been the invited guest in over 400 radio and TV shows from Alaska to Atlanta and from NYC to California. Visit him on Twitter & Instagram @fitspeakers

Lunch & Learn Thursday: free, 1 MCE (with full day registration)

Dr. Daniel Pompa

Actions and Algorithms for Medical Emergencies:
How to Save a Life (Including Your Own)

This presentation will teach you how to respond to a life-threatening crisis in your office or anywhere. The indications for emergency drug use, along with the appropriate dosages will be reviewed. Developing and maintaining an Emergency Drug Kit will be taught. We will explore the “Conversational History” and how it will uncover medical issues not revealed by the standard health history form. Additionally, the participant will learn simple, non-invasive critical tests that can reduce overall risks. We clearly delineate indications for emergency drug use and proper dosages, as well as demonstrate how to assemble and maintain an ideal emergency drug kit. The newest techniques for drug administration will be shown for participants to hone their skills utilizing simulation models and real drugs. Dr. Pompa may incorporate live demonstrations to enhance the learning experience depending on the venue format. 6MCEs

Objectives

Discover three simple chair-side, non-invasive tests to help avoid an emergency • Recognize the most frequent life threatening emergencies and know when and why they occur • Review a systematic approach to treat the most common life-threatening scenarios • Learn how to develop a plan for the office team when dealing with a crisis event • Determine when to administer the essential “Top 10” emergency drugs • Understand legal and moral obligations presented by medical emergencies

Our Speaker

An Oral and Maxillofacial Surgeon, Dr. Pompa shares new and proven clinical approaches while expanding problem solving and analytical skills. He delivers high energy, interactive, multimedia presentations. Attendees will gain insight into the decision making process by reviewing multiple case history scenarios as well as a hands-on workshop with his Medical Emergency course.

Friday MAY 24

Dr. Richard Lipscomb Jr.

This Crown Doesn't Fit:
What the Lab Needs to Make Flawless C+B Cases

In this course, designed for dentists and their staff, Dr. Lipscomb reveals the key to predictable, well-fitting, functional, and esthetically pleasing crowns and bridges centers around producing margins that everyone can see (the lab technician, the dental assistant, and the dentist) and capturing perfect impressions. Through the use of videos and still images clinicians will learn how to create flawless crown and bridge preparations. Clinicians and their team members will be introduced to methods and materials that will improve the quality and efficiency of both crown preparations and impressions. 4 MCEs

Learning Objectives

Learn what dental laboratories are looking for in preparation design and impressions * Learn techniques for creating ideal crown margins * Understand different options to manage soft tissue, which will contribute to capturing a flawless impression * Review techniques on making digital and traditional impressions

Our Speaker

Dr. Richard Lipscomb Jr. is a graduate of The University of Howard College of Dentistry and an international speaker with lectures specializing in restorative mini dental implants. He has been performing restorative procedures for over 20 years and placing mini dental implants since 2006. During that time, he has overseen hundreds of MDI cases and has gained the experience to provide hands-on training for restorative and mini-implant procedures to other doctors.

MedCourse CPR Thursday AM & PM, Friday morning session only.

Legal Issues and Important Updates for the Dental Profession

Margaret Surowka, Esq. & Frances A. Ciardullo, Esq.
Barclay Damon LLP

This course will provide important updates on sexual harassment laws, family leave and disability accommodation, and marijuana/drug testing employees. We will discuss your obligation to provide interpreters, managing service or emotional support animals, litigation concerning websites, and best practices in responding to negative social media postings. We will discuss unannounced visits from process servers and government investigators. When the government knocks, you should know what to expect, from first contact through disposition. This session will include a discussion about frequent allegations made against dentists. We will discuss recurring problems in patient care, such as consent in elderly and minor patients, non-compliant patients, request for refunds and reimbursements, non-payment and discharging patients from the practice. Join us for this informative presentation for your entire office. 4CEs

Our Speakers

Frances A. Ciardullo, special counsel at Barclay Damon LLP, is a member of the firm's Health Care & Human Services Practice Area. She obtained her BA from Cornell University and her JD from Syracuse University College of Law. Fran is a former town justice, the former Central New York Women's Bar Association president, a member of the American Health Lawyer's Association and the New York State Bar Association Health Law Section. She frequently speaks at dental conferences and her writing has been published in the NYSBA Health Law Journal and Medical Liability Mutual Insurance Company's Dateline and Dental Dateline.

Margaret Surowka (formerly Rossi), counsel at Barclay Damon LLP, is a member of the firm's Health Care & Human Services Practice Area. She obtained her BA from Hamilton College and her JD from Albany Law School. Maggie was previously General Counsel to the New York State Dental Association. She serves on the National Society of Dental Practitioners' board of directors and was President of Capital District Women's Bar Association. Maggie is a member of the New York State Bar Association Health Law Section. Her writing has been published in the New York State Dental Journal and the NYSDA Health Law Journal.
